

PhD Scholarship in August 2026

Early Offer Admissions

Why Singapore?

Singapore is a vibrant, cosmopolitan, modern city located in the heart of Southeast Asia.

With a multi-ethnic population of 6.04 million, Singapore has a strong tradition of welcoming professionals and students from all over the world to work, live and study in the city. The society as a whole is multilingual, but the primary medium of communication is English and the only medium used within the National University of Singapore.

Graduate Program in the Department of Chemistry

The Department of Chemistry has made significant contributions to chemistry research and education regionally and globally. NUS Chemistry remains in the top 10 chemistry programs globally for 10 years in a row according to the QS World University Rankings by Subject 2025. The department recruits distinguished students with strong academic backgrounds for its Ph.D program with full scholarship in all areas of chemistry and applied Chemistry. It has a very stimulating research environment and many very active faculty members in research. **For more details about research areas, the faculty members and our PhD program, please refer to:**

Early Offer Admissions

If you are interested in applying to our PhD programme (**Aug 2026 intake**) and want to be considered for early offer admission, please email your CV, transcripts as well as your ranking in your class/department to Mr Yongliang Chen (yongliangchen@nus.edu.sg) before **1 August 2025**.

Please also submit your application online via <https://gradapp.nus.edu.sg/apply/> after you email to Mr Yongliang Chen.

The National University of Singapore

NUS is a comprehensive university offering a wide range of undergraduate and graduate degrees. NUS's student community comprises a cosmopolitan mix of over 51,568 students from 100 countries, contributing to a vibrant and thriving campus life. NUS has developed into an institution considered by many to be among the best in the world, with its transformative education and high impact research making a distinctive and positive impact on society.

For more information on NUS, please visit <http://www.nus.edu.sg>

NUS PhD Research Scholarship

This PhD Scholarship includes tuition fee waiver + up to S\$2,700 stipend (tax free) per month. For top students, our department will recommend you to be considered for the prestigious **President's Graduate Fellowship (PGF)** with higher stipend. **The details about the PGF can be found in the following link:**

<https://nusgs.nus.edu.sg/scholarships/presidents-graduate-fellowship>

The standard deadline for application is November 15, 2025. However we exercise an **early admission offer commitment** in this round. After necessary review processes, we will **commit admission and scholarship offer** to you in August 2025 for the August 2026 intake.

If you are not selected for an early admission offer, your application will still be considered in the regular round along with other applicants.
